Honorable Mayor and Members of the City Council City of Gaastra
PO Box 218
Gaastra, Michigan 49927

#### INDEPENDENT AUDITOR'S REPORT

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and aggregate remaining fund information of the City of Gaastra, as of and for the year ended June 30, 2005, which collectively comprise the City's basic financial statements as listed in the Table of Contents. These financial statements are the responsibility of the City's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the City Council, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the **City of Gaastra** at June 30, 2005, and the respective changes in financial position, and cash flows thereof for the year ended, in conformity with generally accepted accounting principles in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 05, 2005, on our consideration of the **City of Gaastra**'s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

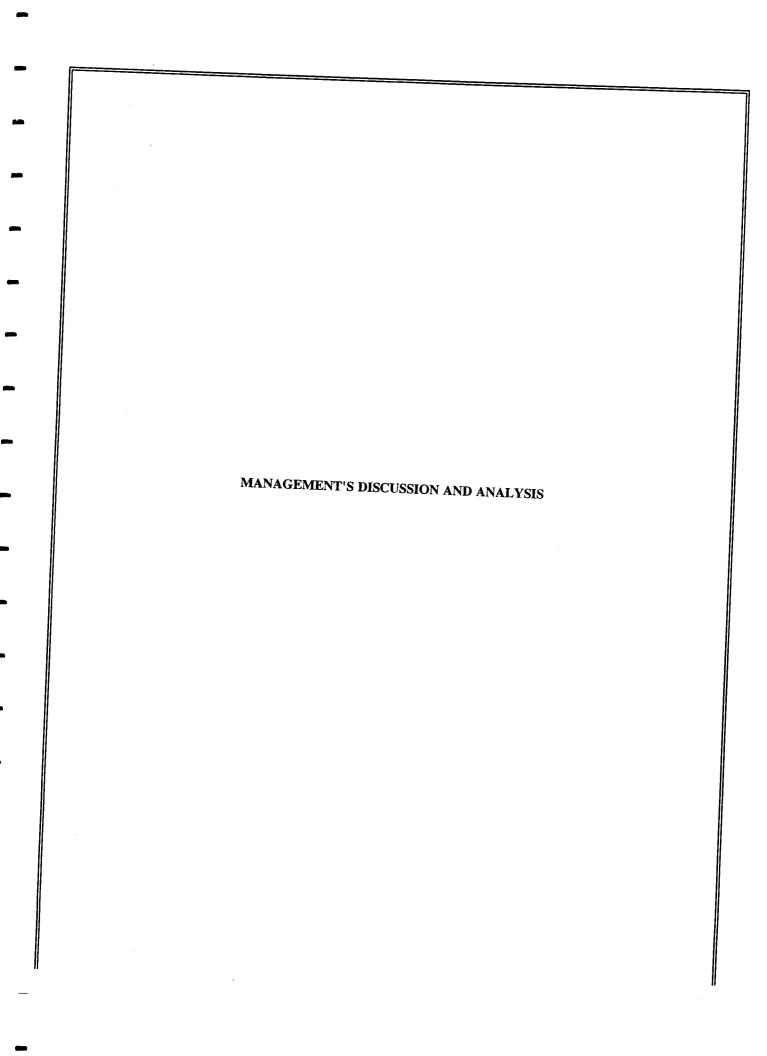

The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with the report in considering the results of our audit.

The management's discussion and analysis on pages 8 through 22 and the budgetary comparison information are not required parts of the basic financial statements but are supplemental information required by the *Governmental Accounting Standards Board* and by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of the inquiries of management, regarding the methods of measurement and presentation of the required supplemental information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Gaastra's basic financial statements. The combining and individual fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The management of the City of Gaastra provides this narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2005. As readers, you are encouraged to read this discussion and analysis in conjunction with the City's financial statement information included in this report.

### Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The financial section of this report includes management's discussion and analysis, the basic financial statements, and required supplementary information. The basic financial statements are comprised of three components:

1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

This report also contains other supplementary information in addition to the basic financial statements themselves.

#### Government-wide financial statements

The government-wide financial statements are designed to provide the readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The Statement of Net Assets presents information on all of the City's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The Statement of Activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

P.O. Box 218 GAASTRA, MICHIGAN 49927 (906) 265-2141

## Government-wide financial statements (Continued)

Both of the government-wide financial statements distinguish functions of the City that are mainly supported by taxes and intergovernmental revenues (government activities) from other functions that are intended to recover all or a significant portion of their cost through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, highways and streets, sanitation and health, culture and recreation, and community development. The business-type activities of the City include Water and Sewer Utilities.

### **Fund Financial Statements**

The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. In the basic financial statements, the emphasis of the fund financial statements is on major funds. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

#### Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. This information may be useful in evaluating the City's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. In order to provide the reader with information to better understand the long-term impact of the government's near-term financing decisions, a reconciliation between the government-wide financial statements and the fund financial statements is included as part of the basic financial statements.

## Fund Financial Statements (Continued)

### Governmental Funds (Continued)

The City maintains three governmental funds. Information is presented separately in the governmental fund balance sheet and governmental fund statement of revenues, expenditures, and changes in fund balance for the general fund and major street fund, both of which are considered major funds. All other governmental funds (local street fund) are presented in aggregate. Individual fund data for each fund is presented separately in the "Other Supplementary Information" section of this report.

The City adopts an annual budget for its general and special revenue funds. To demonstrate compliance with this budget, a budgetary comparison statement has been provided for the general and major street funds, and is included in the "Required Supplementary Information" section of this document.

#### Proprietary Funds

Proprietary funds provide services for which the City charges customers a fee. The City has only one type of proprietary fund - enterprise funds. The enterprise funds of the City are used to report the same functions as the business-type activities in the government-wide financial statements. The Water Utility and Sewer Utility funds are presented separately in both the government-wide financial statements and the fund financial statements. Enterprise funds are used to account for operations very similar to business enterprises, where the intent of the governing body is that the cost of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.

#### Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. The fiduciary fund for the City is the tax collection fund. Fiduciary funds are not included in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. These funds are presented separately in the fund financial statements section of the basic financial statements.

P.O. Box 218 GAASTRA, MICHIGAN 49927 (906) 265-2141

#### **Fund Financial Statements (Continued)**

#### Notes to the Financial Statements

Notes to the financial statements are included in the basic financial statements and provide additional information that is essential for a full understanding the data provided in the government-wide and the fund financial statements.

#### Supplementary Information

<u>Required supplementary information</u> follows the basic financial statements, and includes budgetary comparison schedules for the General Fund and the City's major special revenue funds as presented in the governmental fund financial statements.

Separate combining financial statements for non-major governmental funds are also included in the <u>Other Supplementary Information</u> section of this document.

#### Government-wide Financial Analysis

In time, net assets of a governmental entity may serve as a useful indicator of the government's financial position. In the case of the City, assets exceeded liabilities by \$1,056,185 at June 30.

By far, the largest portion of the City's net assets is its investment in capital assets (land, buildings, infrastructure, machinery, and equipment), less any outstanding debt related to acquiring the asset. These capital assets are used to provide services to citizens and are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. At June 30, 2005, the City reported \$822,278 in net assets invested in capital assets net of related debt.

External restrictions of the City's net assets represent resources subject to existing external obligations or programmatic control on future use. The remaining balance of unrestricted net assets of \$ 133,568 may be used to meet the government's ongoing obligations to citizens and creditors.

#### **Governmental Activities**

Property taxes and other tax revenues comprise \$ 53,105 or approximately 17 percent of total governmental revenues.

P.O. Box 218 GAASTRA, MICHIGAN 49927 (906) 265-2141

#### **Governmental Activities (Continued)**

Operating grants and contributions for governmental activities ended the fiscal year at \$62,597, primarily attributable to the State of Michigan's Act 51 funding for major and local streets. At fiscal year end, the City reported \$50,948 in grants and contributions not restricted for specific programs. This amount was due entirely to the State of Michigan's state sales tax distribution.

The City expensed \$ 283,012 on governmental programs and services. The largest expense category was incurred for general government, which totaled \$ 99,158, or approximately 35 percent of total expenses. Streets and highway expenses were \$ 64,449 or 23 percent of the total, and public works expenses were \$ 35,217, or 12.4 percent of the total. Public safety expenses were attributed to management's continuing commitment to preserve the lives and property of the residents of the City, with current year expenses of \$ 30,889.

#### **Business-type Activities**

Business-type activities decreased the City's net assets by \$3,389. Charges for services for the Water and Sewer activities for the year ended were \$61,043 and \$44,361, respectively.

Total expenses for the Water and Sewer Fund activities for the year ended were \$65,799 and \$45,915, respectively.

#### Financial Analysis of the Governmental Funds

As previously noted, the City uses fund accounting to ensure and demonstrate compliance with finance-related requirements.

#### **Governmental Funds**

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. This information is useful in assessing the City's financing requirements. In particular, the unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

P.O. Box 218 GAASTRA, MICHIGAN 49927 (906) 265-2141

#### Financial Analysis of the Governmental Funds (Continued)

#### **Governmental Funds (Continued)**

The City's governmental funds reported combined ending fund balances of \$143,118, of which \$9,550 is reserved and the remaining \$133,568 is available for spending at the government's discretion.

The City's primary governmental fund is its general fund. There are no reservations in the general fund's fund balance.

On the budgetary basis of accounting, the City ended the fiscal year with general fund revenues considerably more than the original budgetary projection, but very close to the final amended budget. Total expenditures were also less than the final projection, but substantially more than the original budget. And, at fiscal year end, the fund balance was higher than either the original or the final amended budget projections.

#### Financial Analysis of the Governmental Funds (Continued)

#### **Governmental Funds (Continued)**

General fund financial and budgetary highlights of the fiscal year include:

- \* Use of money and property exceeded final budgetary projections by \$21,803.
- \* Charges for services were equal to the final amended budget, coming in at \$8,312. This is slightly less than the original budgeted estimates of \$9,050.
- \* State of Michigan sales tax distribution of \$ 50,948 was less than anticipated in the final amended budget of \$ 51,761.
- \* Expenditures in total for the general fund were \$ 216,332, less than the final budgetary appropriation of \$ 221,993, but substantially more than the original budget estimate of \$ 162,097.

Major Street Fund financial and budgetary highlights of the fiscal year include:

- \* State of Michigan Act 51 funding for major streets was slightly lower than the original and final budgeted amounts; coming in at \$ 49,473 compared to the original budget of \$ 50,240 and the final budgeted amount of \$ 50,401.
- \* Total expenditures were \$51,614, higher than budgeted in either the original or the final amended budget by \$1,374 and \$649, respectively.

#### **Proprietary Funds**

The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

P.O. Box 218 GAASTRA, MICHIGAN 49927 (906) 265-2141

### Financial Analysis of the Governmental Funds (Continued)

#### **Governmental Funds (Continued)**

#### **Proprietary Funds (Continued)**

Net assets of the Water and Sewer Funds at year-end were \$ 706,660 and \$125,174, respectively. The growth or change in net assets for the Water and Sewer Funds were (\$ 1,843) and (\$ 1,496), respectively. Other factors concerning the finances of these funds have already been addressed in the discussion of the City's business-type activities.

#### Capital Asset and Debt Administration

#### **Capital Assets**

The City's investment in capital assets, net of accumulated depreciation, for its governmental and business-type activities as of June 30 is \$ 1,340,278. The investment in capital assets includes land, buildings, improvements, infrastructure, machinery and equipment, and licensed vehicles.

Infrastructure assets represent \$ 1,610,944, or approximately 68 percent of the estimated original cost of total assets. Major and local street funds comprise \$ 220,282, or 14 percent of this infrastructure; the Water Fund's infrastructure is appraised at \$ 1,217,553, or 75 percent of the total; the Sewer Fund's infrastructure is \$ 173,109, or 11 percent of the total. There is no infrastructure attributed to the General Fund.

Significant capital events during the fiscal year ended June 30, 2005 included the City's development of Willow Street, resulting in several new homes being constructed and thereby increasing the City's tax base.

#### Long-term debt

As of June 30, the City (including the enterprise funds) had total bonded debt outstanding of \$ 518,000. The entire amount of this debt represents bonds secured solely by specified revenue sources (i.e., revenue bonds).

P.O. Box 218 GAASTRA, MICHIGAN 49927 (906) 265-2141

#### Capital Asset and Debt Administration (Continued)

#### Long-term debt (Continued)

State statutes limit the amount of general obligation debt a governmental entity may issue to 10 percent of its total assessed valuation. The current debt limitation is significantly higher than the City's outstanding general obligation debt.

Currently, the bond program does not maintain underlying bond ratings.

#### Other Economic Factors and Next Year's Budget

#### **Economic Factors**

Currently, the State of Michigan is experiencing a severe budgetary crisis. As such, it is anticipated that future state budget cuts will likely translate into strategic reductions of City expenses to maintain a fiscally sound budget.

Despite the poor outlook of the State's budget, the City's guiding principles for the upcoming fiscal year is to continue building and maintaining strong neighborhoods, provide good social and cultural conditions that support healthy families, remain a safe and clean city, and invest in opportunities that promote economic growth and financial capacity.

The City's fiscal year 2005-2006 general fund budget is \$ 179,242, representing a decline of \$ 73,220 over the previous fiscal year's actual operating results.

The following areas highlight the City's priorities for the upcoming fiscal year.

- Blacktopping of First Street and Center Street.
- \* Secure a grant to connect Apple Blossom Trail from the City of Caspian through Gaastra to Pentoga Park.

P.O. Box 218 GAASTRA, MICHIGAN 49927 (906) 265-2141

## Other Economic Factors and Next Year's Budget (Continued)

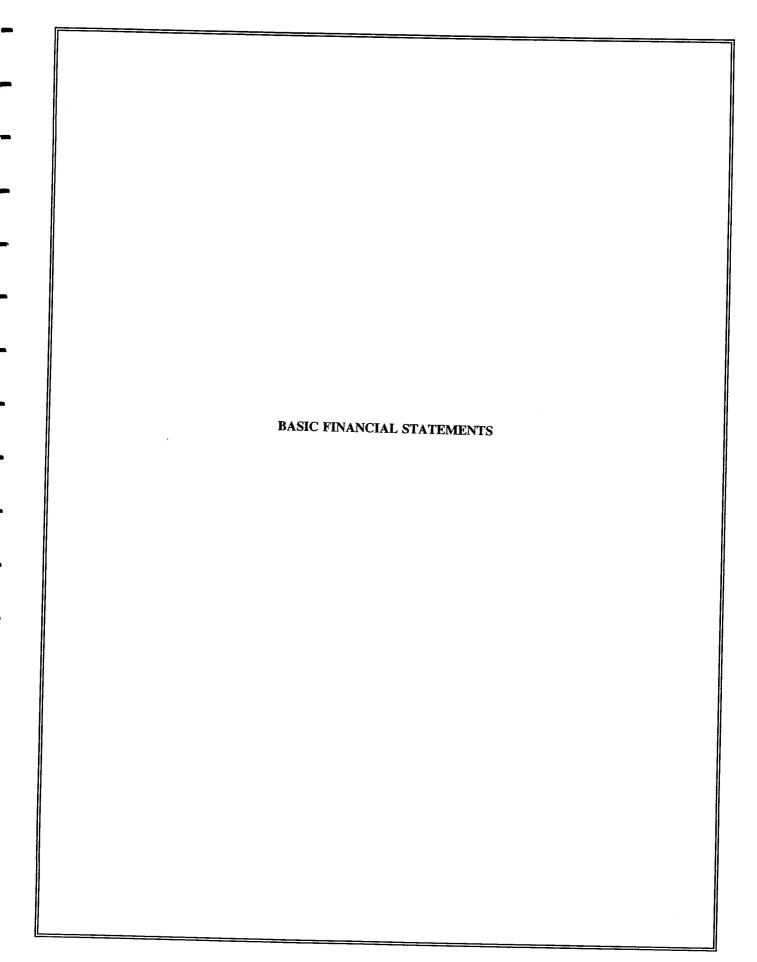

#### **Economic Factors (Continued)**

- Purchase a new pickup truck.
- \* Sell remaining lots on Willow Street and several lots on Nowicki Road.
- \* Replace "Welcome to the City of Gaastra" signs, and obtain advertisers to offset the cost of new signs.

### NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 2005

## NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting methods and procedures adopted by the City of Gaastra, Gaastra, Michigan, conform to generally accepted accounting principles as applicable to governmental entities. The following is a summary of the more significant policies:

### THE FINANCIAL REPORTING ENTITY

The City was organized in 1949 and covers an area of 2 square miles. The City operates under an elected board of five (5) commissioners and provides services to its approximately 376 residents in many areas including law enforcement, general administration and water and sewer services. In accordance with the provisions of GASB 14, certain other governmental organizations are not considered to be part of the City entity for financial reporting purposes. The criteria established by GASB 14 for determining the various governmental organizations to be included in the reporting entity's financial statements include separation of electing governing body and legal status, and fiscal independence.

### THE FINANCIAL REPORTING ENTITY (Continued)

On this basis, the financial statements of certain other governmental organizations are not included in the financial statements of the City.

### **BLENDED COMPONENT UNITS**

A blended component unit is a legally separate entity from the local unit, but is so intertwined with the unit that it is, in substance, the same as the local governmental unit.

A basic strategy of GASB 14 is to present financial information for component units separately from the financial information for the primary government. This is achieved through the discrete presentation method. However, in the case of blended component units, GASB believes that it would be more appropriate to use the blending method to incorporate the financial information of a component unit into the reporting entity's financial statements.

### NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### **BLENDED COMPONENT UNITS** (Continued)

When the blending method is used, transactions and balances of a component unit are merged with similar transactions and balances of the primary government so that there is no way to identify which balances relate to the component unit and which relate to the primary government.

There are no blended component units to be included in the financial statements of the City of Gaastra.

### **JOINT VENTURES**

A joint venture is a legal entity or other organization that results from a contractual agreement and that is owned, operated, or governed by two or more participants as a separate and specific activity subject to joint control, in which the participants retain an ongoing financial interest or an ongoing financial responsibility.

### West Iron County Sewer Authority

The City of Gaastra has entered into an agreement with several governmental entities in Iron County to form the West Iron County Sewer Authority.

The Authority was established in August 1972 under the provisions of Act 233, Public Acts of Michigan, 1955, as amended, and was organized to provide sewer service to the cities of Iron River, Stambaugh, Caspian, Gaastra, and a portion of Iron River Township.

The first grant applications were filed in 1982. Two members from each participating municipality are appointed by their respective governmental entities to serve on the Board of Trustees of the West Iron County Sewer Authority.

Pursuant to the terms of the Authority's Sewer Use Ordinance adopted by the Authority and each Constituent Municipality, the Authority bills each Constituent Municipality monthly based on such Constituent Municipality's percentage of Equal Dwelling Units ("EDUs") to the total number of EDUs for the entire System. Billing to end users is done by each Constituent Municipality using its own billing system and methodology.

Under the EDU system, the Authority adopts a preliminary budget in April of each year for its next fiscal year beginning the following July 01.

The City follows GASB Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments. GASB Statement No. 34 adds the following components to the financial statements:

### Management's Discussion and Analysis

A narrative introduction and analytical overview of the government's financial activities. This analysis is similar to analysis the private sector provides in their annual reports.

### Government-wide financial statements

These include financial statements prepared using full accrual accounting for all of the government's activities.

### Government-wide financial statements (Continued)

This approach includes not just current assets and liabilities (such as cash and accounts payable) but also capital assets and long-term liabilities (such as buildings and infrastructure, including bridges and roads, and general obligation debt). Accrual accounting also reports all of the revenues and cost of providing services each year, not just those received or paid in the current year or soon thereafter. The government-wide statements include the Statement Net Assets and the Statement of Program Activities.

### Statement of Net Assets

The Statement of Net Assets displays the financial position of the primary government (government and business-type activities) and its discretely presented component units.

The net assets of a government are broken down into three categories - 1) invested in capital assets, net of related debt; 2) reserved; and 3) unreserved.

#### Statement of Program Activities

The statement of activities reports expenses and revenues in a format that focuses on the cost of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

### Budgetary comparison schedules

Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. The City and many other governments revise their original budgets over the course of the year for a variety of reasons.

## GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The basic financial statements include both government-wide (based on the City as a whole) and fund financial statements. The reporting model focus is on both the City as a whole and the fund financial statements, including the major individual funds of the governmental and business-type categories, as well as the fiduciary funds, (by category).
